

Research Assistant Position at Ashoka University

Position: A Research Assistant Position is open in Dr. Susmita Saha's lab (Magnetic characterization lab), in the department of Physics, at Ashoka University, India. The candidate will be working on the magnetization dynamics in magnetic thin films and nanostructures.

Requirements:

- Master's degree in Physics or Nanoscience and Nanotechnology
- In-depth knowledge and laboratory expertise in Physics lab is required.
- Basic knowledge of some programming language is also required.
- Must have an enthusiasm for research, passion to learn and be able to maintain meticulous records of experimental procedures with a good team spirit.

Duration: Initial appointment will be for 6 months, which is extendable upon satisfactory performance.

Funding will be provided according to Ashoka University norms.

Deadline to apply: 21st August, 2022

Interested applicant should send their CV detailing relevant laboratory research experience, contact details of at least three referees (email and contact number) and a cover letter to Susmita Saha (Susmita.saha@ashoka.edu.in).
